

#### DESCRIPTION

Series 190T Adjustable Tilt Mirrors come with a bright polished stainless steel frame. Arm brackets and piano hinges allow mirror to tilt downward for wheelchair use.

#### TECHNICAL DATA

Mirror: 5mm thick float plate glass, electro-copper backed to prevent silver spoilage.  
 Backing: Full-sized expanded polystyrene sheet.  
 Back Plates: 22 gauge galvanized steel.  
 Channel: ½" x ½" x ½" bright polished stainless steel with mitered corners.  
 Piano Hinges: 18 gauge stainless steel.  
 Arm Brackets: 13 gauge chrome plated steel.

#### SPECIFICATION

Adjustable Tilt Mirrors shall be Series 190T as manufactured by JSM, Rancho Dominguez, CA. Mirrors shall be \_\_\_\_" wide x \_\_\_\_" high.

#### NOTES

1. Mirror sizes indicate nominal glass size. **Actual finished mirror sizes are ¼" larger.**
2. Always order mirrors by width first, then height.

#### INSTALLATION

1. Attach bottom piano hinges first with appropriate mechanical fasteners.
2. Raise mirror to upright position and attach arm brackets.

#### GUARANTEE

190T Series Adjustable Tilt Mirrors are guaranteed for ten years against silver spoilage with proper maintenance.
