

### DESCRIPTION

Series 400 Surface Mounted Corner Guards are fabricated from stainless steel to serve as protection in areas subject to wall damage.

### TECHNICAL DATA

Material: 16 or 18 gauge type 430 or 304 stainless steel with a PVC protected #4 brushed satin finish.

Size: 1½" and 3½" wings are standard; others are available (A). 40" and 48" lengths are standard; available to 120" (B).

Angle: 90° is standard; others are available.

Radius: 1/8" and 3/4" are standard (C).

### INSTALLATION

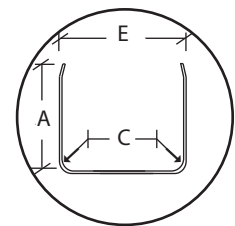

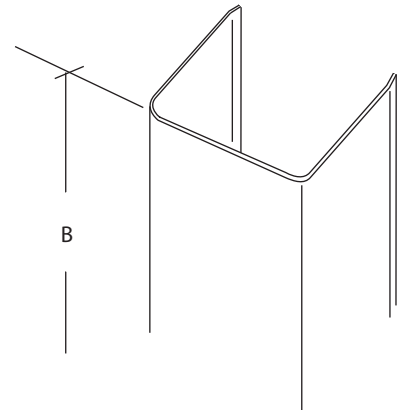

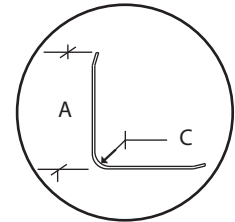

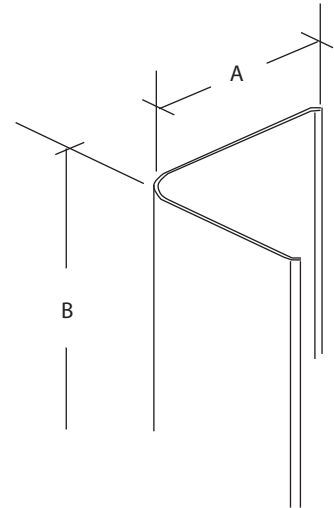

Ordinary construction adhesives can be used to attach the corner guards to areas of potential wall damage. Corner guards can also be mounted with double-backed foam tape or they can be drilled for attachment with mechanical fasteners.

### SPECIFICATION

Surface Mounted Corner Guards shall be Series 400 as manufactured by JSM, Rancho Dominguez, CA.

### GUARANTEE

400 Series Corner Guards are guaranteed for five years from shipping date against defects in materials and workmanship.
